CA2 PROJECT DETAILS

Project Title: The Restaurant Order Management System

The Restaurant Order Management System:- full-featured web application designed to streamline the order-taking process and manage a restaurant's order database efficiently. This system enables customers to place food orders online, while restaurant staff can manage incoming orders, update statuses, and track customer details in real time.

Team Name: **celestial Coder**

Course Code: **INT220**

Name: **Palak Kumari**

Registration number: **12323549**

Team Member Names:

ARCHI KUMARI - 12302306

 TANISH GARG -   12306446

Aryan Kumar -   12312571
